## OPEN ACCESS DATABASES

### Clinical Knowledge Summaries

<http://www.cks.nhs.uk/home>

The NHS **Clinical Knowledge Summaries** (formerly PRODIGY) are a reliable source of evidence-based information and practical 'know how' about the common conditions managed in primary care.

### Evidence in Health and Social Care

<http://www.evidence.nhs.uk/>

NHS Evidence is a service that enables access to authoritative clinical and non-clinical evidence and best practice through a web-based portal. Evidence is managed by the National Institute for Health and Clinical Excellence (NICE).

### Google Scholar

<http://scholar.google.com/>

Google Scholar provides a simple way to broadly search for scholarly literature. From one place, you can search across many disciplines and sources: articles, theses, books, abstracts and court opinions, from academic publishers, professional societies, online repositories, universities and other web sites.

### Highwire

Stanford University

<http://highwire.stanford.edu/lists/freart.dtl>

HighWire Press is the largest archive of free full-text science on Earth! As of 10/11/12, we are assisting in the online publication of 2,145,624 free full-text articles and 6,657,465 total articles. There are 25 sites with free trial periods, and 61 completely free sites. 279 sites have free back issues, and 1342 sites have pay per view!

### National Guideline Clearinghouse

<http://www.guideline.gov/>

NGC is an initiative of the [Agency for Healthcare Research and Quality \(AHRQ\)](#) <sup>ה'תש"ס</sup>, U.S. Department of Health and Human Services. NGC was originally created by AHRQ in

[rena@sm.health.gov.il](mailto:rena@sm.health.gov.il)

partnership with the American Medical Association and the American Association of Health Plans (now America's Health Insurance Plans [AHIP]).

### **Nursing + Best Evidence for Nursing Care**

<http://plus.mcmaster.ca/np/Default.aspx>

Best Evidence for Nursing+ is a service made available by McMaster University's Health Information Research Unit that incorporates the McMaster PLUS email alerting system and searchable database of best evidence from the medical literature.

### **PILOTS – Published International Literature on Traumatic Stress**

National Center for PTSD, US Department of Veterans Affairs

<http://www.ptsd.va.gov/professional/pilots-database/pilots-db.asp>

This bibliographic database, covering the Published International Literature On Traumatic Stress, is sponsored by the U.S. Department of Veterans Affairs. It provides citations and abstracts to the international literature on post-traumatic stress disorder (PTSD) and other mental-health sequelae of traumatic events.

### **PLOS Medicine**

Public Library of Science

<http://www.plosmedicine.org/home.action>

*PLOS Medicine* is the leading open-access medical journal, providing an innovative and influential venue for research and comment on the major challenges to human health worldwide. It publishes papers which have relevance across a range of settings and that address the major environmental, social, and political and biological determinants of health.

### **Pubmed**

<http://www.ncbi.nlm.nih.gov/pubmed/>

PubMed comprises more than 22 million citations for biomedical literature from MEDLINE, life science journals, and online books. Citations may include links to full-text content from PubMed Central and publisher web sites.

[rena@sm.health.gov.il](mailto:rena@sm.health.gov.il)

## **Pubmed Central**

<http://www.ncbi.nlm.nih.gov/pmc/>

PMC is a free full-text archive of biomedical and life sciences journal literature at the U.S. National Institutes of Health's National Library of Medicine (NIH/NLM).

## **Scirus**

<http://www.scirus.com/>

**Scirus** is the most comprehensive scientific research tool on the web. With over 460 million scientific items indexed, it allows researchers to search for journal content, also scientists' homepages, courseware, pre-print server material, patents and institutional repository and website information.
